CAREER OBJECTIVE

Computer science student with a passion for learning, innovation and technology. Looking to utilize my experience as a strong programmer and team leader in a collaborative software development internship.

EDUCATION

MIDDLE TENNESSEE STATE UNIVERSITY, MURFREESBORO

Aug 2024 – May 2028

- GPA: 3.1/4.0
- Bachelor's in Computer Science, Sophomore

TECHNICAL SKILLS

- **Development:** HTML, CSS, Tailwind CSS, React, TypeScript, Python, C++, JSON, SQL
- **Tools & Platforms:** Git, GitHub Actions, n8n, Expo, Node.js, Vite, Adobe, Figma, Docker

EXPERIENCE

Business and Economic Research Center (BERC) at MTSU

Undergraduate Assistant, Developer

Aug 2025 – present

- Architected and deployed a full-stack digital research platform (React, Tailwind, structured JSON) that converts static academic PDFs into a searchable, multi-view web system, improving accessibility and navigation across journal issues and other research publications.
- Engineered an automated Daily Economic Briefing pipeline integrating public data, rule-based signal scoring, and scheduled delivery (GitHub Actions), enabling consistent, data-driven insights with zero manual intervention.
- Built a subtitle generation and editing tool (React + Python + Whisper) supporting VTT/ASS formats, real-time preview.
- Served as Undergraduate Editor for Journal of Urban and Regional Perspectives, reviewing, editing, organizing, and preparing academic content for publication.
- Produced the 2026 Forum on Growth and Regional Challenges intro video, delivering a polished, presentation-ready media asset.

SpIQ – Hackathon 1st Place and Hacker's Choice Award

Frontend Developer, Co-Founder

Jan 2026

- Developed an AI-powered communication coaching platform using React, TypeScript, Tailwind CSS, and Flask to analyze user speech, facial expressions, and gestures in real time.
- Implemented multimodal analysis by combining speech patterns with visual signals (MediaPipe) to generate structured performance feedback.
- Built a video-based interview simulation system with timed prompts and segmented sessions to replicate real-world communication scenarios.
- Integrated OpenAI API for transcript processing and feedback generation, converting user responses into actionable insights.
- Awarded 1st Place and Hackers' Choice at MTSU HackMT 2026.

MTSU Soccer Club

Founder President

May 2025 – present

- Founded and lead a 110+ member organization promoting competitive and recreational soccer at MTSU. Managed sponsorship outreach, budget allocation, and event coordination, enhancing student engagement and community visibility.
